

## DB Breweries Limited

### ENV01 ENVIRONMENTAL POLICY

DB Breweries Limited (DB) is committed to the sustainable and long-term development of its business whilst ensuring any environmental impacts are minimised throughout its value chain. As part of its Brewing a Better New Zealand sustainability strategy, DB places specific focus on protecting water resources, reducing carbon emissions and waste, and sustainable sourcing.

DB is committed to continuous improvement and considers the following points to be of key importance to ensuring its environmental impact is minimised:

- In all instances DB will comply with New Zealand laws and regulations as a minimum standard. HEINEKEN best practice standards will be adopted when they exceed local standards.
- DB's products will be manufactured with the efficient use of required raw materials, water and energy.
- Continuous attention will be paid to the avoidance and reduction of waste, nuisance and pollution.
- DB will actively promote recycling and circular solutions within manufacturing and throughout its value chain, including with consumers.
- DB's environmental impact will be measured and annual targets will be developed to promote continuous improvement.
- Through the HEINEKEN Supplier Code of Conduct, DB expects the adoption of similar environmental principles by its suppliers.
- DB expects that its employees and external stakeholders, including suppliers and customers, support its commitment to protect the environment and prevent pollution.
